

#US4US Festival

Prince Albert, Cape Karoo 28 – 30 October 2022

About the event

The #US4US Festival is an event by the community, for the community. This event serves as a strategic platform to develop life skills, technical skills, and competency. The key intent of this festival is to activate youth, upskill and expose young people to best practices, and eventually disrupt the local economy to grow job opportunities for youth.

What to expect

The event is planned and executed by the locals of the Prince Albert municipal region. The programme will include an array of activities for everyone, young and old, to enjoy. This includes performances from local artists that will perform original music. There will also be a fun park for the kids, a community concert, food stalls, and much more.
